

NOTICE REGARDING THE LAITRAM WELLNESS PROGRAM

The Laitram Health Plan includes a voluntary wellness program available to all employees. The program is administered according to federal rules permitting employer-sponsored wellness programs that seek to improve employee health or prevent disease, including the Americans with Disabilities Act of 1990, the Genetic Information Nondiscrimination Act of 2008, and the Health Insurance Portability and Accountability Act, among others. If you choose to participate in the wellness program, you will be asked to complete a voluntary health history and risk assessment or "HHRA" that asks a series of questions about your health-related activities and behaviors and whether you have or had certain medical conditions (e.g., cancer, diabetes, heart disease). You will also be asked to complete a biometric screening, which includes a blood test for total cholesterol, HDL, LDL, Triglycerides, TC/HDL Ratio, and Glucose.

You are not required to complete the HHRA or to participate in the biometric screening or other medical examinations. However, employees who choose to participate in the wellness program will receive an incentive of \$100 in their Health Reimbursement Account for completing the biometric screening and HHRA. Although you are not required to complete the HHRA or participate in the biometric screening, only employees who do so will receive the \$100 incentive.

The information from your HHRA and results from your biometric screening will be used to provide you with information to help you understand your current health and potential risks, and may also be used to offer you services through the wellness program, such as meeting with one of the Nurse Practitioners (in person or telephonically). You also are encouraged to share your results or concerns with your own doctor.
